

What's Going On?

Restoration of Historic Transportation Shelters

The bygone era of Milwaukee's streetcar system is recalled through the restoration and installation of these architectural gems. The Friends of Hank Aaron State Trail (FOHAST), with major support from the Milwaukee Building and Construction Trades Council, refurbished the historic shelters which date back to the 1920's. The original design drawings were used to reconstruct the structures' frames and ornate copper cladding.

The shelters are installed in prominent locations along the Hank Aaron State Trail; in the Historic Third Ward at Catalano Square and near the 25th Street Roundabout on Canal Street, providing a resting spot and information displays about the Trail. The Canal Street shelter features solar powered lighting.

The Trail will take you there!
